

2023 GAULT RESEARCH AWARDS

McGill

RÉSERVE NATURELLE
GAULT
NATURE RESERVE

About the Gault Research Awards

Gault Nature Reserve is proud to provide support for research. Research projects provide valuable experience and are a major stepping-stone to a student's career, particularly if they are interested in pursuing graduate studies.

Learn more about us: gault.mcgill.ca.

Selection Criteria

This Award will be granted through a competitive review process evaluated by an independent committee of faculty members. The selection of recipients will be based on the quality of the proposed research, its relevance to the mission of the Reserve, and the educational background of the student. **The research must take place entirely or in large part at the [Gault Nature Reserve \(Mont-Saint-Hilaire, QC\)](#) or at the [Wilder and Helen Penfield Nature Conservancy \(Lake Memphrémagog, QC\)](#).** A maximum of 10,000\$ will be awarded per project. Candidates should also meet the following criteria:

- Is or will be an undergraduate or graduate student at McGill University during the coming academic year (2023-2024) **or** was a student in the previous academic year (2022-2023);
- Demonstrates a strong interest in field-based research **or** data that is relevant to Gault's [mission](#);
- Commit to participating in outreach activities highlighting their research with local communities and visitors of the Reserve (e.g., blog posts, informational kiosks, etc.)

Application Process

Send the following documents to science@reservegault.ca in PDF format :

- A cover letter;
- A CV including a summary of past training and research experience;
- A University transcript;
- A one-page (maximum) description of the proposed research;
- A support letter from the project supervisor(s);
- A plan describing the proposed use of the funds.

Deadline for application: February 17th, 2023
